

The Capo Company

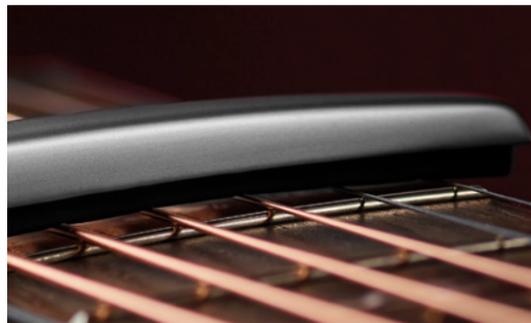

The Future of **Capos**

## What makes a G7th **capo**?

As fellow guitarists, we understand that a capo needs to not only do its job well - hold down the strings without buzzing – but as an important piece of gear in a guitarist's toolkit it also needs to be tough and dependable.

## What Makes a G7th **capo** different?

All G7th **capos** share the following attributes:

### Stay in tune

G7th capos are designed to work using the minimum tension needed to fret the strings. This means your guitar won't be pulled out of tune by the excessive force required by many other capos. Less force also helps reduce the risk of accelerated fret wear old-fashioned capos can cause.

### Protect your neck

With G7th, there is no metal to wood contact between the capo and the neck of the guitar – preventing dings. Also, no marks in soft lacquer due to over-application of tension.

### Preserve your tone

The pad in contact with your strings is deliberately harder than on most other capos. This means less damping of your sound caused by fat, softer pads. You get more of the unaltered tone of your guitar.

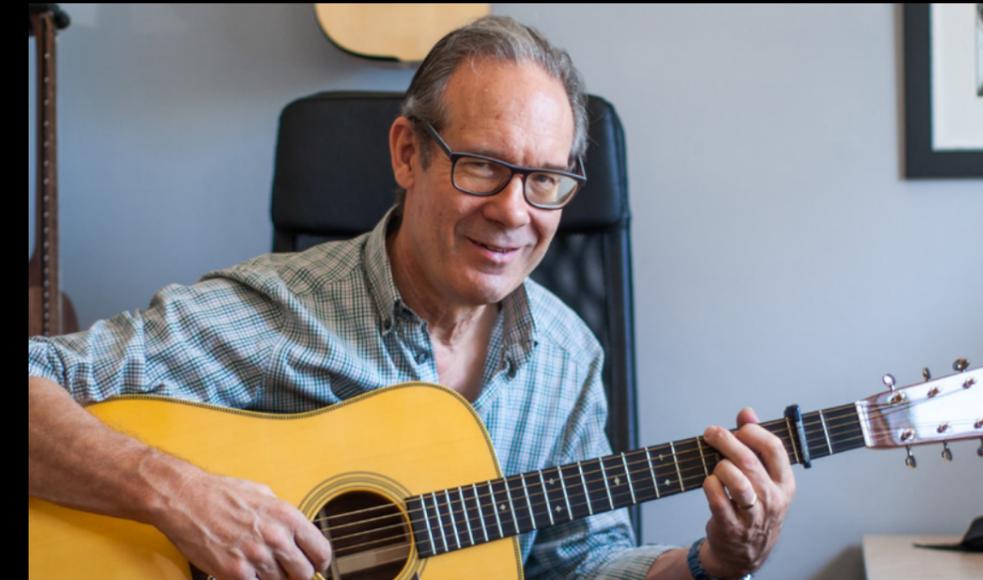

If your capo develops a fault, we will replace it free of charge, anywhere in the world! It's as simple as that.

#### Warranty Registration

G7th has a 100% commitment to customer satisfaction. If you have a defective capo we will replace it free of charge, anywhere in the world\*. Please contact us so we can give you instructions for our replacement procedure. To register your warranty online please fill out the form below. You can also register by post if you prefer.

\*The warranty covers any manufacturing fault or failure of the mechanism during normal use. It is not an insurance policy and does not cover any misuse or accidental damage.

If you wear out the rubber on your Performance or Performance 2 capo then you can purchase a replacement through our online store. For most users, the original rubber will last a lifetime. If you have lost the lower arm rubber from your Newport capo they can also be purchased from our online store.

We have a comprehensive range of 21st Century designed capos which offers you a one-stop shop for all your capo needs - acoustic & electric steel string, classical & flamenco, 12-strings, banjos, ukuleles, and partial capos. There is a G7th capo for all styles and any spending budget.

At G7th we work hard to continually improve our designs and make our capos even better, to give you, the guitarists, the greatest possible capo experience without the distractions caused by lesser capos.

That's why we say – G7th is

# The Future of **Capos**

# ART<sup>®</sup>

## Adaptive Radius Technology<sup>™</sup>

One **capo** for a perfect fit on most any guitar?

Only on a G7th **capo** with ART<sup>®</sup>

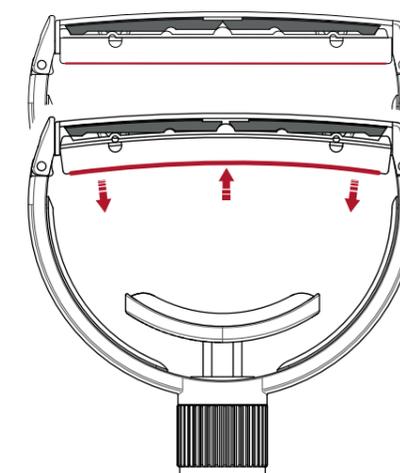

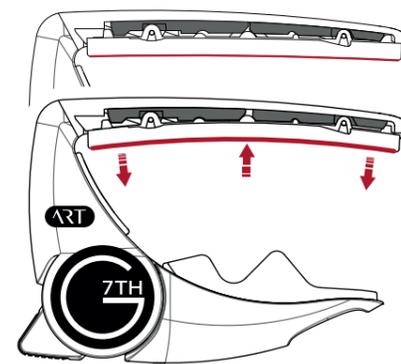

What makes this possible? Our most recent innovation – the patented Adaptive Radius Technology string pad. This groundbreaking string pad mechanically adapts to match the curvature over the strings (radius) on any guitar, delivering unrivalled tuning stability. With ART<sup>®</sup>, one capo delivers complete confidence that there will be no string buzz, or need for constant retuning.

Available in both the Performance 3 and Heritage ranges.

“The ART<sup>®</sup> system is a huge advance in capo design; it allows for buzz free capoing and stable tuning on every guitar in my collection.”

Tony Polecastro, Internet Guitar Geek

ART<sup>®</sup>  
Adaptive Radius Technology<sup>™</sup>

## Unique Tension Control

For perfect pressure

Since the launch of the first Performance capo in 2004, our patented unique Tension Control system has been praised by guitarists all over the world - simply squeeze to attach the capo with the minimum pressure required, then squeeze the lever to release. Easy and intuitive, and exclusive to the G7th Performance capo ranges.

## Compensated String Pad

For 12 strings

12-strings have always been difficult for capos - the heavier strings were inevitably pulled sharp from the pressure required to fret the octave strings, creating a tuning nightmare. Now, our patented Compensated String Pad allows you to capo all 12 strings at the same time and with the same tension, meaning you no longer suffer those drastic tuning problems or muted and buzzing octave strings.

Available in both the Newport and Heritage ranges.

## Performance 3

In tune on every guitar, every time

### With patented Adaptive Radius Technology™

Featuring ground-breaking Adaptive Radius Technology, coupled with the Unique Tension Control system found on all Performance series capos, the Performance 3 is our flagship capo.

New active string pad infinitely adapts to match any guitar perfectly. The ART® mechanism delivers unrivalled tuning stability by applying even pressure across the strings.

“The ART® system is a huge advance in **capo** design; it allows for buzz free capoing and stable tuning on every guitar in my collection.”

Tony Polecastro  
Internet Guitar Geek

- Patented, unique Tension Control system - the simple intuitive squeeze-on, squeeze-off action means you can easily and quickly move the capo from fret to fret, or from guitar to guitar without any adjustment needed: just squeeze for optimum tension
- Almost as fast to position as a simple spring capo – but faster, because you don't need to retune
- Wrap around silicone rubber protects your neck from metal to wood contact
- Safeguards your tone thanks to firm string pad material that reduces vibration damping
- Free Lifetime Warranty
- Available in:  
Silver, Satin Black, 18kt Gold Plate

(See Custom Shop for Celtic Special Editions)

## Performance 3 Classical & Flamenco

For Classical, Flamenco and Wider neck guitars - including flat and radiused fingerboards.

### With patented Adaptive Radius Technology™

The Performance 3 is the culmination of years of designing, tweaking, and improving - but most importantly, listening to guitarists and their views on what a capo SHOULD do. Now, coupling our Unique Tension Control™ system with the groundbreaking ART® string pad mechanism gives a near-perfect capo experience.

Thanks to the 65mm / 2.5" string pad, the Performance 3 Classical is perfect for both Classical and Flamenco guitars, and for Wider neck guitars such as 7-string and 8-string electric guitars.

“The Classical P3 is an extremely sturdy enhancement to what was an already standout choice in the Classical capo market. The P3 has the signature G7th ‘squeeze and play’ action, but it’s the ART® that produces a noticeably firmer and more even locking of all strings at every fret. It really doesn’t get better than this for Classical capos.”

Declan Zapala  
UK-based Concert Guitarist

- Patented, unique Tension Control system - the simple intuitive squeeze-on, squeeze-off action means you can easily and quickly move the capo from fret to fret, or from guitar to guitar without any adjustment needed: just squeeze for optimum tension
- Almost as fast to position as a simple spring capo – but faster, because you don’t need to retune
- Wrap around silicone rubber protects your neck from metal to wood contact
- Safeguards your tone thanks to firm string pad material that reduces vibration damping
- Free Lifetime Warranty
- Available in:  
Classical: Silver

## Heritage

Tradition and innovation in harmony

### With patented Adaptive Radius Technology™

Our traditional yoke style capo was the first to feature Adaptive Radius Technology.

With force exerted from the centre of the guitar neck, the ART® string pad can perfectly distribute the pressure over all 6 strings.

“The longer I have the Heritage and the more I play with it, the more I love it. Workmanship, design, and ART® aside, it SOUNDS GREAT! No matter where I place it, it replicates the dry woody bark that my Rockbridge Smeck has uncapoed.”

Randall Ray  
Rockbridge Guitars luthier and co-founder

- Features include a secure latching top bar, knurled tension adjustment knob, silicone neck pad and side guards protect your instrument's neck from metal to wood contact
- Conveniently stores behind the nut when not in use, including over standard volutes
- Safeguards your tone thanks to firm string pad material that reduces vibration damping
- Comes with a leather pouch, polishing cloth and gift box
- 12-string model that includes our Compensated String Pad
- Stunning acanthus engraving options with our Custom Shop
- Free Lifetime Warranty
- Available in:  
Guitar - Standard & Wide widths: Stainless Steel, 18kt Gold Plate ,  
12-String (wide width): Stainless Steel, 18kt Gold Plate  
Banjo - Standard & Wide widths: Stainless Steel

(See Custom Shop for engraving options)

## Newport

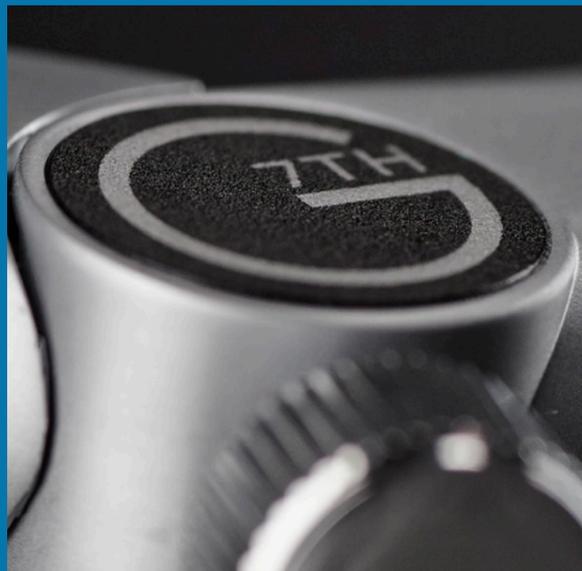

Low profile, flip-lever guitar **capo**

Small, light and beautifully-formed - The G7th Newport is meticulously designed for your fretting hand, eyes and ears.

The cunningly concealed flip lever design is perfect for heavy strings, high actions and 12-strings, with a knob for fine-tunetension adjustments while on the neck.

“Finally, this is THE ONE. A **capo** that has the massive strength to survive super-heavy strings, crazy tunings, and even string bending, and the precision to be able to perfectly tune the pressure to my needs. And yet it still looks so stealthy.”

Jon Gomm  
UK based acoustic solo artist/singer-songwriter/  
virtuoso guitarist

- Protects your neck with wrap-around silicone rubber
- Safeguards your tone thanks to firm string pad material that reduces vibration damping
- Easy to use - fine tune your tension while on the neck
- Light weight and low profile design keeps the Newport capo out of the way of your fretting hand
- Get drop-D or DADGAD style sounds without the need for retuning using the Newport 3 & 5 String Partial Capos
- For 12-string guitars, our exclusive patented Compensated String Pad uses carefully designed ridges in the string pad's rubber. This allows you to fret all 12 strings at the same time and with the same tension by compensating for the different gauges of strings
- Free Lifetime Warranty
- Available for:  
Steel string: Silver, Satin Black  
12-string, classical, banjo, 3-string partial, 5-string partial: Silver

## Nashville

Lightweight spring **capo**

For those who prefer the simplicity of a spring capo, the G7th Nashville is the No. 1 choice.

“The Nashville **capos** are a must-have of any professional touring musician. I have one for every guitar that I own. It’s sleek looking, sturdy, and provides the perfect amount of pressure to not bend the strings out of tune.”

Bear Rinehart  
NeedtoBreathe

- Fewer tuning problems as the Nashville delivers the right amount of tension to your string. Spend less time retuning and more time playing
- Protects your neck with wrap-around silicone rubber
- Safeguards your tone thanks to firm string pad material that reduces vibration damping
- With the spring pivot point closer to your guitar neck, the Nashville is faster and easier to use than other spring capos
- Stores on your headstock
- Free Lifetime Warranty
- Available for:  
Steel String: Silver, Satin Black, 18kt Gold Plate  
Classical: Silver  
Ukulele: Silver (NEW from 2022)

## Nashville

Lightweight spring **capo**

In our NEW expanded range of Nashville coloured capos, influenced by the needs of performing artists, these new colours were chosen to look outstanding under stage lights as well as appealing to amateur and professional guitarists alike.

“The Nashville capos are great! Easy access, they don’t mess with my tuning, fantastic tone, and I get to match them to my guitars! A G7th grade capo in all kinds of stunning colours.”

Fernando Ufret  
US-based Artist

# Your Capo Your Style Your Choice

- Fewer tuning problems as the Nashville delivers the right amount of tension to your string. Spend less time retuning and more time playing
- Protects your neck with wrap-around silicone rubber
- Safeguards your tone thanks to firm string pad material that reduces vibration damping
- With the spring pivot point closer to your guitar neck, the Nashville is faster and easier to use than other spring capos
- Stores on your headstock
- Free Lifetime Warranty
- Available for:  
Steel String: Red, White, Green, Blue – **(NEW from 2023)**

## UltraLight

Premium **capo** at an affordable price

Weighing in at only ¼ oz (8 g) the Ultralight model is a simple and elegant design that delivers fast, great-sounding results at the lowest price yet for a G7th capo.

“The UltraLight holds fast and keeps strings free of buzz at a price that’s tough to beat.”

Charles Saufley  
Premier Guitar review April 2017

- A genuinely pro-level capo at a price that’s within easy reach
- Easy to use - unique ‘click, twist and play’ action for fast, buzz-free use
- Perfect for beginners, as the adjustable tension and flexible string pad yield better tuning stability than most low-cost spring capos
- The world’s lightest capo, making it perfect for classical and ukulele players who are sensitive to extra weight on the neck
- Free Lifetime Warranty
- Available for:  
Steel String: Black and Blue

## G7th Custom Shop

Stunning laser engraved capos, with designs exclusive to G7th

### Special Edition Performance 3 Celtic capos

In celebration of Celtic music, G7th asked acclaimed Celtic artist, Patrick Gallagher, to design a motif around the themes of treble and bass clefs for engraving onto the back and top bar of our Performance series capos.

Available on Performance 3 capos in: Silver, Satin Black, 18kt Gold Plate

### Protector Shell Case

Conveniently keep your G7th capos, picks and accessories together in one place.

- Durable, semi-rigid shell and padded inner walls protect your favourite capo
- Stop your small accessories rattling around in your guitar case
- Capo not included in case price
